*is proved acc. to*

## AD 2000-Merkblatt W1 para 3.3 and 3.4

The manufacturer proved with adequate statistical reliability that the necessary requirements for materials mentioned below under scope, are met. The manufacturer is allowed to waived the hot tensile test for the listed steel grades. He is obliged to add the following note to the inspection certificate:

"Confirmation of adequate degree of safety for dimensions (see below range of materials) for the waiving of hot tensile tests on the basis of confirmation issued by TÜV AUSTRIA SERVICES GmbH dated 31.01.2023"

**Scope of approval:** Evidence of adequate degree of safety for plates made from P265GH, P355GH, P275NH and P355NH acc. to AD 2000-Merkblatt W1, DIN EN 10028-2 and DIN EN 10028-3

**Range of materials:** Plates 10 mm – 120mm thickness of the grade P265GH  
Plates 10 mm – 60mm thickness of the grade P355GH  
Plates 10 mm – 80mm thickness of the grade P275NH  
Plates 10 mm – 100mm thickness of the grade P355NH

**Date of audit:** 12.01.2023 and 13.01.2023

**Date of expiry:** 12.01.2026

**The validity of this certificate is maintained through annual surveillance audits and corresponding renewal audits.**

**Certificate No.: 0036-23-I-POLM**
